

# Hotspot Guide

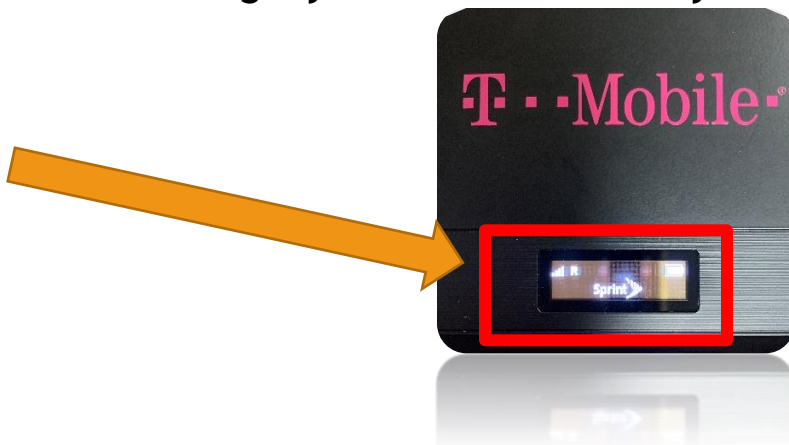

1. Turn on hotspot by holding the power button for 5 seconds on the front of device

2. You will see “Welcome” on the screen

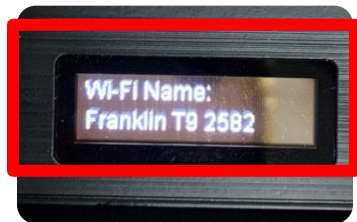

3. Wait until you see the “Sprint” logo and the network bars on screen to signify network connectivity

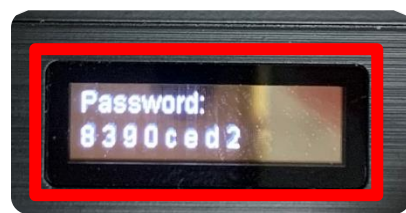

4. Connect Mobile Device to hotspot with following steps:  
(Tap power button to cycle through menu options)
- a. Tap power button once to data usage

- b. Tap power button again for hotspot Wi-Fi Name (select the name below on your mobile device to connect to hotspot)

- c. Tap power button once more for hotspot password (When prompt to type in hotspot password to connect your mobile device)

5. Hotspot is now ready to connect to your device(s)
6. Remember to charge device periodically, and before returning and enjoy!
7. To turn off hotspot, simply press the power button for 3-5 seconds.
